2022 BUDGET MESSAGE

The Board of Directors of the Garfield County Federal Mineral Lease District (“District”) is pleased to submit the 2022 Adopted Budget in accordance with the Local Government Budget Law of the State of Colorado. This budget sets expenditures and revenues for District projects, for the period January 1, 2022 through December 31, 2022. The First Amended 2021 Budget is also included for convenience.

The budget sets expenditure limits well below revenue and available General Fund balance for the District’s two main expense categories, Projects and Administrative Expenditures (operations), for fiscal year 2022. The budget reflects the policy priorities and goals of the Board of Directors for 2022. The expenses incurred are in furtherance of the District’s statutory purposes, namely, the distribution of funds to political subdivisions of the State through competitive grant programs in conformity with the Federal Mineral Lease District Act § 30-20-1307, C.R.S. (2021) and 30 U.S.C. § 191. District grants mitigate the social or economic impacts of the development and processing of minerals by the energy industry on federal lands within Garfield County. Grants may be used for (1) planning, (2) construction or maintenance of public facilities, or (3) provision of public services.

Financial Highlights

The 2022 Budget authorizes and allocates total expenditures of \$2,107,030: \$2,010,000 for grants, \$97,030 for administration. The allocation of \$2,546,158 received in September, 2021, from the Colorado Department of Local Affairs allows the District to restore its Traditional Grant Program for 2022. Administrative expenses have increased by 8.76% compared to 2021 but remain 3.15% below actual 2020 expenses. The increase funds contracted bookkeeping services and restores a modest budget for training, education, and related expenses. Unrestricted cash funds at yearend total \$3,720,846.

Basis of Budgetary Accounting

The District uses the modified accrual basis of accounting for its General Fund. Revenues are recognized and accounted for when they become available and measurable. Expenditures are generally recognized under the modified accrual bases of accounting, when the related liability is incurred.

Summary

The Directors cannot predict market forces or the impact that federal or state government regulations may have on the natural gas industry, which in turn would impact District revenues. The District, however, has maintained a strong financial position since its inception, and the 2022 Adopted Budget continues this tradition. The Board of Directors continues to exercise sound business judgment and fiscal conservatism in furtherance of its statutory mission.

Respectfully,

/s/ Gregg Rippy

MISSION STATEMENT

The Garfield County Federal Mineral Lease District, expeditiously and through sound financial practices,

alleviates the social, economic, and public finance impacts resulting from the development of natural resources on federal lands within Garfield County;

distributes the financial resources it receives from federal mineral leasing activities through grants to communities impacted by the development of natural resources; and

serves the Citizens of Garfield County by providing the greatest use of these financial resources for the greatest number of Citizens.

District History and Background

The Board of County Commissioners of Garfield County created the Garfield County Federal Mineral Lease District (“District”) on June 13, 2011. The county commissioners finalized the appointment of the District’s inaugural Board of Directors, Gregg Rippey, Mike Samson, and Eric Schmela, on July 11, 2011, and the District Board held its first organizational meeting on August 10, 2011.

The District operates under state statute, specifically, under the Federal Mineral Lease District Act, C.R.S., § 30-20-1301 *et seq* (2021). It is a unit of a state government, an independent public body, whose essential public function is to help alleviate the social, economic, and public finance impacts resulting from federal mineral leasing activities within Garfield County. The statute directs and empowers the District to distribute funds it receives each year from the Colorado Department of Local Affairs (federal mineral lease payments) to assist communities impacted by the development of natural resources on federal lands within Garfield County.

The District’s goal is to provide the greatest use of the financial resources it receives for the greatest number of Citizens, and to do so expeditiously and using sound financial principles. The District does not have the power to levy or collect taxes, nor does it have the power of eminent domain.

Federal and state law limit the use of funds distributed to the District in two ways. Funds may only be used by the state, or its political subdivisions, and may only be used for (1) planning, (2) construction and maintenance of public facilities, or (3) provision of public services. See 30 U.S.C. §191.

To ensure funds are distributed fairly, the District utilizes two competitive grant cycles each year, a Spring Cycle and a Fall Cycle. Within each cycle, the District operates two grant programs: a Traditional Grant Program and a Mini Grant Program. The District Board also names a Grantee of the Year each year and grants \$10,000 to the winner.

Colorado statutes regarding open and public meetings and records, budgets, and audits all apply to the District. The budgets and audited financial statements dating to 2011, as well as a complete record of all Board resolutions and meeting minutes for those years, are available for inspection at the District’s offices, which are located at 817 Colorado Ave., Suite 201, Glenwood Springs, CO 81601. The District Board holds its regular monthly meetings on the second Wednesday of the month at 9:00 a.m. in the District Office, and encourages members of the public to attend in person or via Zoom videoconference.
